

Mahindra ODYSSEA

Mahindra Odyssea 22

Length Over All	6.3 meters	Load Carrying Capacity	600 kgs
Beam	2.25 meters	Fuel Capacity	200 liters
Depth (Moulded)	1.26 meters	Water Capacity	-
Draught (Hull)	0.34 meters	Person Capacity	7
Deadrise	19.5	Certification	CE 'C'
Total Weight (Incl. OBM)	1.30 tonnes	Hull Type	Deep V Hybrid Trihedral

Mahindra Odyssea 33

Length Over All	10.00 meters	Load Carrying Capacity	1690 kgs
Beam	2.95 meters	Fuel Capacity	800 liters
Depth (Moulded)	1.75 meters	Water Capacity	200 liters
Draught (Hull)	0.45 meters	Person Capacity	12
Deadrise	19.5	Certification	CE 'C'
Total Weight (Incl. OBM)	3.30 tonnes	Hull Type	Deep V Hybrid Trihedral

NOTE :

1. Mahindra Odyssea 22 and 33 are powered by engines ranging from 60 hp – 250 hp.
2. "Length Overall (LOA)" refers to the distance along the centerline from the tip of the bow to the aft-most part of the hull.
3. "Beam" refers to the width of the boat at its widest point.
4. "Deadrise" refers angle of the hull at the transom, as measured in degrees, relative to the water. The higher the number (e.g. 24 degrees), the more pronounced the angle of the hull's V.

5. "Draught" refers to the vertical distance from the bottom of the hull to the waterline.
6. CE 'C' certifies that a product has met EU consumer safety, health or environmental requirements.
7. Deep V Hybrid Trihedral: While the deep V at the bow ensures the boat cuts through the waters, the trihedral shape ensures stability and a dry ride and together both these features ensures that the ride is fuel efficient as well.

Standard Equipment – 22

Standard Equipment

Stainless steel fuel tank 200 liters
Cockpit Drain
Cleats
Rub Rail
Steering Wheel with steering system/cable (manual)
Windscreen
Horn

Seating

Standard upholstery

Navigation Aids & Lights

Navigation lights (Port & STBD)
Searchlight
Anchor Light / Mast Light

Safety

Automatic Bilge Pump
Life Jacket

Electronics & Instrumentation

Battery with isolation switch
Evinrude I – Command gauges
Switch Panel

Others

Builders plate
Metallic lettering for MO Logo

Standard Equipment – 33

Standard Equipment

Stainless steel fuel tank 800 liters
Stainless steel water tank 200 liters
Hydraulic steering system (including wheel)
Full length hardtop bimini
Bar table with wash basin
Marine toilet and sink
Cockpit Drain

Seating

Standard upholstery

Navigation Aids & Lights

Marine Horn
Searchlight
Navigation lights (Port & STBD)
Anchor Light / Mast Light

Safety

Automatic Bilge Pump
Life Jacket

Electronics & Instrumentation

Fresh water indicator
Switch Panel
Battery with isolation switch
Evinrude I – Command gauges

Others

Builders plate
Metallic lettering for MO Logo

Optional Equipment

Trailer

Custom Marine Flooring
(Teak/ Marine Carpet)

Marine CD/FM/AM player
with 2 or 4 speakers

GPS – Chartplotter

Customized Decals

Personal floatation devices
